

# DECORATIVE

*Aquascape introduces its newest brand of decorative items, Aquascape Select. Aquascape has had a long history of searching the world for excellent quality products for pond building and maintenance. Now we are extending our offering to include more items that you can enjoy around the pond and products that give consumers with smaller spaces options for enjoying the relaxing sound of water.*

## RimRock Spires™

*RimRock Spires are quarried in a unique site found in the Sierra Nevadas where ancient volcanic activity combined with recent glacial activity has created the unique fractured appearance that lends itself for natural stone water fountains.*
