**Floating Pond Thermometer** – an easy way to check the temperature of your pond. Label on top indicates when to plant tropicals and feed fish.

##### #98222 Floating Pond Thermometer

Case: 6, Unit Weight: .2 lbs.

**NEW!**  
FOR 2008

**AquaDeicer™ 200** is energy efficient – only 200 Watts of power. Low profile minimizes wind resistance – unnoticed in pond. Thermostatically controlled to operate only when necessary. Maintains a vent hole in ice to release harmful gasses – fish and pond friendly. Versatile to work in any sized pond – fully grounded 10' supply cord. Not intended to raise water temperature. 2 year warranty. 1-3/4" tall; 12" diameter. 8 ft. cord.

##### #98151 200-Watt Deicer

Case: 8, Unit Weight: 3 lbs.

**NEW!**  
FOR 2008

**1250-Watt Floating De-Icer** keeps a hole open in the ice all winter long to ensure the health of your pond fish.

##### #01418 1250-Watt Floating De-Icer

Case: 4, Unit Weight: 3.4 lbs.

### Tip:

For winter de-icing, see the AquaForce™ Pump on page 35.
