

# SOLUTIONS Chart

Beneficial Bacteria Water Treatments		
Product	What it Does	on Page
<b>AquaClearer™ Extreme Dry</b>	Contains microbes and enzymes that are effective at reducing sludge, uneaten fish food, fish waste, and excess nutrients.	40
<b>AquaClearer™ Extreme Liquid</b>	Faster acting than dry formula. Contains microbes that are effective at reducing ammonia, nitrites, and excess nutrients.	40
<b>AquaClearer™ Extreme Cold Water Liquid</b>	Contains cold water microbes that are effective at accelerating the digestion of organic matter such as leaves, seeds, branches, etc. Excellent at reducing ammonia, nitrites and excess nutrients. Great for Spring start ups.	40
<b>AquaClearer™ Extreme Wetland/Pond &amp; Lake</b>	Contains a highly concentrated blend of beneficial microbes that are effective at reducing ammonia, nitrites, and excess nutrients.	40
<b>S.A.B.™ Extreme</b>	Breaks down and reduces debris in pond.	41
Non-Bacteria Water Treatments		
Water Quality Troubleshooting		
Product	What it Does	on Page
<b>EcoBlast™</b>	Breaks down algae. Fish safe.	41
<b>EcoCarbon™</b>	Removes odors and any discoloration to the water. Good at removing "tea colored" water.	41
<b>EcoFloc™</b>	Clumps suspended particles in the water for easy removal for filter. Fish safe	42
<b>EcoFoam Away™</b>	Removes foam from the water. Fish safe	42
<b>EcoShade™</b>	Colors the water dark blue so light doesn't penetrate through, thus preventing debris. Fish safe.	42
<b>EcoBarley™</b>	Decomposing barley releases peroxide which reduces debris.	41
<b>Bitty Bales™</b>	Decomposing barley releases peroxide which reduces debris in an easy-to-use mesh bag.	41
<b>Pondless® Waterfall AlgaeBlast™</b> <small>Not Available in Canada</small>	Attacks and prevents algae growth in Pondless® Waterfalls. Not safe for live plants, snails and other invertebrates	42
pH Adjusters		
Product	What it Does	on Page
<b>EcoLizer™</b>	Helps stabilize the pH of the water between 6.5-8.5	43
<b>EcoLizer Up™</b>	Raises the pH of the water	43
<b>EcoLizer Down™</b>	Lowers the pH of the water	43
Fish Medications		
Product	What it Does	on Page
<b>EcoRx™ Pond Salt</b>	Salt can be used to treat a variety of common parasites such as ich, costia, chilodonella, and epistylis. Can also be used in therapeutic amounts in order to reduce stress in fish and help them osmoregulate.	45
<b>EcoRx Ick™ Control</b>	Should be used to treat fish exposed to ick. Symptoms may include tiny white dots, flashing, lethargy, and labored breathing.	45
<b>EcoRx™ Parasite Control</b>	Should be used to treat fish with symptoms such as sliminess of the skin, gasping for air, flashing, and clamped fins.	45
<b>EcoRx™ Bacteria and Fungus Control</b>	Should be used to treat fish with dropsy, bloating, ulcers, fin and tail rot, swim bladder disease, lesions, "popeye," corkscrew swimming and fungal infections.	45
<b>EcoRx™ Anchor Control</b>	Should be used to treat fish with anchor worms or lice. Anchor worms and lice may appear as little worms or "bugs" on the fish.	45
<b>EcoRx™ Anti-Parasite Medicated Fish Food</b>	Should be fed to fish that are being treated for parasitic infections.	45
<b>EcoRx™ Anti-Bacterial Fish Food</b>	Should be fed to fish that are being treated for bacterial infections.	45
